

THE CAREER MAP · PART 1

You were handed a map with three roads on it.

Teen raaste. Bas.

Medical
representative

Hospital
pharmacist

M.Pharm →
teaching

AFTER GRADUATION

SWIPE »

THE MEDICAL DEVICE INDUSTRY

Its map has *a lot more* than three roads.

It runs on people with exactly your background and it's hiring at companies you already know.

\$12B → **\$50B** by 2030

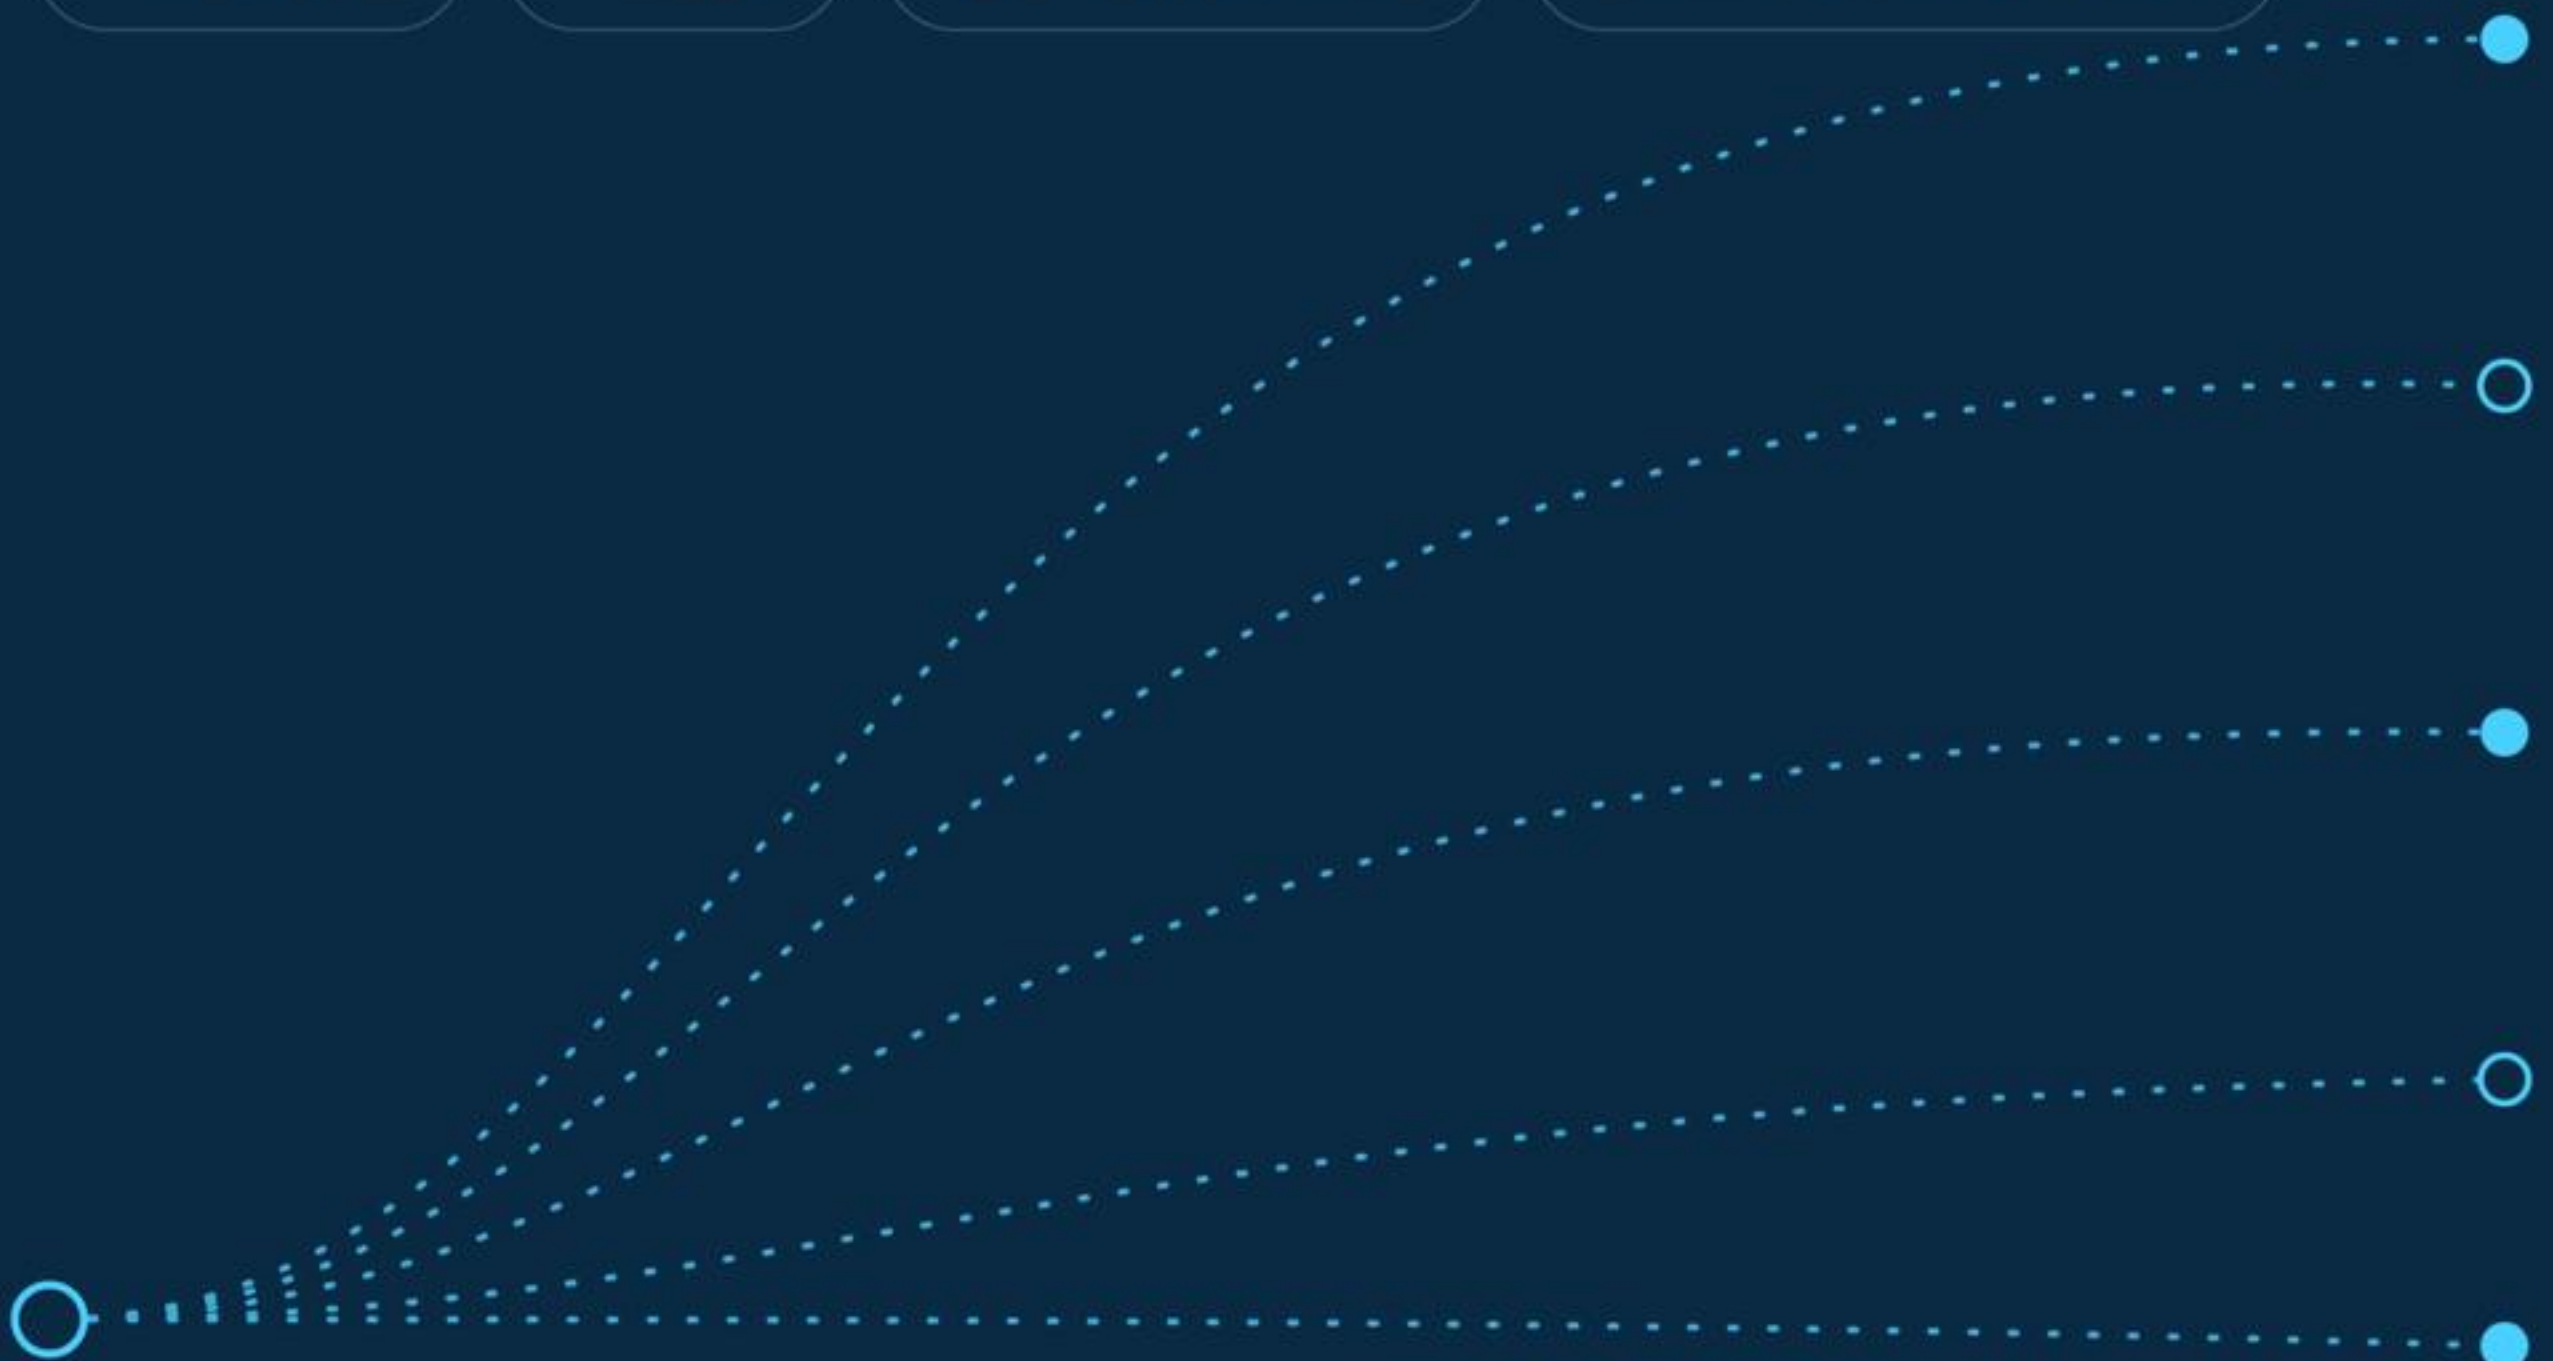

SOURCE • IBEF, 2025

Medtronic

Abbott

Boston Scientific

Siemens Healthineers

ROAD 01

Clinical application specialist

Where you train doctors to use the device.

Your clinical knowledge *is* the job.

ROAD 02

Regulatory affairs

Where your eye for detail becomes the entire job.

Pharma compliance logic
transfers.

ROAD 03

Medical device sales

Where your science finally
gets used in the room.

AND THE MAP KEEPS GOING

**Market access · Medical affairs · Product &
training roles**

| Same access. *Bigger* ticket.

You didn't fail to find these jobs.

Nobody put them in front of you.

Woh aapki galti nahi hai.

TELL ME BELOW – I READ EVERY ONE

When you graduated, how many real roads did anyone actually sit you down and explain?

Comment and let us know...
