

Foundational to Placement: A Curriculum Designed by the People Who Actually Hire in MedTech.

A 6-week live online programme — Foundational Module + Modules 1–5 + Capstone Placement Sprint. Every module was shaped in direct collaboration with MedTech sales directors who told us exactly what they wish new hires already knew.

FORMAT	STRUCTURE	OUTCOME
Live online, evenings + Saturdays	Foundational + 5 Modules + Capstone	Placement sprint with mock interviews

FOUNDATIONAL MODULE

Foundations of Medical Devices

“Move from pill volume to the device world — understand what you'll actually be selling and where it comes from.”

- The full device map: diagnostic, therapeutic, surgical, implantable, monitoring — and how Class A–D risk levels work
- Devices across specialties: cardiology, ortho, neuro, radiology, critical care
- Who makes what in India — manufacturers, MedTech parks, PLI schemes, and why it matters to your career
- The import ecosystem: global MNCs, distributors, and where the high-value roles sit

Key themes: [Class A–D Devices](#) · [Make in India / PLI](#)

MODULE 01

Healthcare Setup & Multi-Stakeholder Management (HCPs, Procurement & Supply Chain)

“Walk into any hospital — OR, ICU, Cath Lab — and know exactly who decides, who influences, and who signs.”

- Working areas of a hospital: OR, ER, ICU, Cath Lab, Imaging, Labs, CSSD — and the devices that live in each
- Mapping the buying committee: CNO (Chief Nursing Officer), CMO (Chief Medical Officer), procurement, HOD (Head of Department)
- How public vs. private hospital purchasing actually works — tenders, formulary addition, budget cycles
- Building champions at every level of the hierarchy

Key themes: [OR](#) · [ICU](#) · [Cath Lab](#) · [Buying Committees](#)

MODULE 02

Consultative Medical Device Enterprise Dynamics

“Unlearn pharma detailing. Learn how high-value, multi-stakeholder device deals are actually won.”

- The real difference between pharma detailing and device consultative selling
- Every sales channel in MedTech: direct, distributor, government tenders, GPOs, institutional
- Needs-discovery frameworks used by top industry reps
- Smart comebacks for when the hospital says “we already buy from someone else”
- Building long-cycle deals across 3–9 month buying windows — and the KOLs who decide them

Key themes: B2B Capital Cycles · KOL Engagement

MODULE 03

Device Portfolio & Competitive Selling

“Master a new product portfolio in two weeks and displace competitors who’ve owned the account for years.”

- How to learn a new product portfolio in 2 weeks
- Reading a clinical study — what actually matters for device selling
- Competitive landscape: knowing your rivals’ weaknesses
- Objection handling for price, efficacy, and switching costs

Key themes: In-Account Trials · Objection Dominance

MODULE 04

Distribution & Supply Chain in MedTech

“Understand how devices actually move — from manufacturer to super-stockist to the hospital shelf — and the roles that run it.”

- The flow: manufacturer → super-stockist → distributor → hospital, and where each role fits
- Managing channel partners: targets, margins, KPIs, and keeping ROI honest
- Cold-chain and storage realities for sensitive devices
- Reverse logistics: returns, servicing, replacements

Key themes: Channel Partner ROI · Cold-Chain Logistics

MODULE 05

Clinical Data, Regulatory & Quality (RAQA)

“Back every pitch with evidence — and open the door to Regulatory Affairs & Quality Assurance careers.”

- Reading a clinical paper like a MedTech professional
- Regulatory essentials: CDSCO registration, CE Mark, 510(k)
- ISO standards and Quality Management Systems — the language of RAQA roles
- Post-market surveillance: using real-world data in selling
- Translating evidence for surgeons and administrators alike

Key themes: CDSCO · CE · 510(k) · ISO / QMS

CAPSTONE — THE PLACEMENT SPRINT**Career Architecture & Placement Sprint**

“Everything converges here: your new identity, your resume, your interviews, your offer.”

- Rebuilding your resume from pharma Medical Representative (MR) to MedTech Account Executive (AE)
- LinkedIn optimisation for inbound recruiter attention
- 60-min mock interviews with actual MedTech hiring managers
- Offer negotiation: base, variables, and benefits — what to push on
- Career paths mapped: sales executive → territory manager → regional manager → product & marketing roles

Key themes: Mock Interviews · Offer Negotiation

Pricing, cohort dates and admission details are discussed on the admissions call. Reserve a seat at the free live masterclass to walk through this curriculum with our faculty.
